ADDENDUM NO. 1

REQUEST FOR PROPOSALS (RFP)

STORM DRAIN MASTER PLAN (SDMP)

JUNE 23, 2023

General

1. This Addendum No. 1 is intended to provide responses to questions received and has a total of 3 pages (including this page) and modifies the RFP in the following manner:

- a. Adds new attachment: - *Addenda Acknowledgement*

All other items of the documents shall remain unchanged. Bidders are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum No. 1. It will be construed that each bidder's proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

A signed copy of this addendum and the attached acknowledgement form shall be attached to the bid proposal. Failure to do so may cause rejection of your proposal as being non-responsive.

Sanjay Mishra, P.E., T.E.,
Public Works Director

Questions & Responses:

Question # 1:

Is there existing quantity data available for the City's storm drain system such as length of pipe, number of catch basins, number of manholes, etc., and can this information be provided to the consultants so that it can be used for developing the required fee schedule?

Response:

City has shape files for the existing storm drain system. Most of the available data seems accurate but in the recent past we have discovered some inaccuracies in the current record. We have not re-verified the current data and some inaccuracies to be expected. We will upload the shapefiles for consultants to review and use it for the proposal.

Please download the shapefiles from

https://www.ci.pinole.ca.us/city_government/public_works/capital_projects/bids_and_rfps

Question # 2:

Does the City have any existing field data collection systems such as stream gauges, flow/depth sensors, etc. that can be used for calibrating the hydrologic/hydraulic model?

Response:

No city does not have any field data collection system.
