Date	Type of Service Done on Grease	Volume of Grease	Method of Grease Disposal	Grease Trap Serviced By		Comments	
	Trap	Removed		Print Name	Signature		
	•						

All restaurants that maintain their own grease traps must keep a maintenance log to ensure that grease traps are in proper working order at all times.

Any maintenance events must be properly documented on this form or a similar form.

Maintenance Logs will be inspected as part of the Fats, Oil and Grease (FOG) Program
