SOMETIMES THE SMARTEST MOVE IS NOT MOVING AT ALL.

Meet Home Match:

We've simplified and streamlined the process of finding the right person to share your home. Someone who complements your lifestyle and interests. We interview, screen, run background checks and support you throughout the process. You are right where you want to be, with extra income and companionship. It's the way to stay.

Here's how it works:

- Complete an application
- Conduct home visit and screening
- Share lifestyle preferences and communication style
- Meet potential matches
- Choose your homemate
- Draft agreement for living together
- Support from beginning to end

If I wasn't able to take in a roommate I'd have to leave this city, and I don't want to go. I love San Francisco. This is my home, and this is how I stay here.
